Privacy and security

Terrastruct is built from the ground-up with security in mind for every decision.

Terrastruct has been audited by a SOC2-certified auditor and has received a SOC2 certification. This is the industry standard level of certification for the SAAS industry.

Intellectual property

On the Enterprise plan, your organization will have ownership over all diagrams and IP created, even private diagrams.

When members are removed from your team, their private files will automatically transfer to the organization admin.

Custom requests

All Enterprise plan organizations are assigned an engineer and account manager.

All requests are prioritized to the highest level, with fast responses and turnarounds.

ENTERPRISE PLAN COST

Enterprise plan cost is calculated by the number of seats. All Enterprise agreements are on a 12-month basis, billed annually. You can add seats to your plan at any time throughout the 12-month agreement and the additional cost will be prorated.

10-49 seats
\$30/seat/month

50-100 seats
\$20/seat/month

Over 100 seats
\$15/seat/month
